It is now probable that the tariff on coal will be placed at sixty cents per short ton, the equivalent of sixty-seven cents per fong ton. This will be sixty-seven cents more per ton than was proposed originally to make it in the Wilson bill, twenty-seven cents more than was provided in that measure as finally passed, after the protection Democratis pet through amending it through various compromises, and is but eight cents less than the Republican tariff prior to

At the close of the services the President returned to Mr. Evans' home, where he quietly rested until about 5 o'clock, when the Mesdames McKinley and Evans, the President and Commissioner, drove to Orchard Knob, one of the crucial points in the battle of Missionary Ridge. A Bomb Heavily Charged With Powder and Swanshot

EXPLODES NEAR HIS COACH

But, Luckily, Fails to Inflict Any Injury. One Man Arrested who Dtd Not Answer Questions of the Police Satisfactorily, but it is Believed the Real Culprit Es caped-The President Cheered Vociferonsly by Immense Crowds on His Return to the Elyses.

PARIS, June 13.-An attempt was nade to-day to assassinate Felix Faure. president of the French republic, while he was en route to Long Champs to witness the Grand Prix. While M. Faure's carriage was passing a thicket near La Cascade restaurant, in the Bois de Bolougne, a bomb, which subsequently proved to be a piece of tubing about six nches in diameter, with a thickness of half an inch, charged with powder and

half an inch, charged with powder and swanshot, exploded.

No one was injured by the explosion. A man in the crowd suspected as the prime mover, was arrested. He gave his name as Gallet, and made only the brief-cst replies to questions put to him by the police. Gallet said dath he had no occupation, but resided at Levallers-Perret. The police are making a thorough search of his lodgings. He is believed to be insane, for he shouled as the carriage passed along so loudly as to attract general attention in the crowd. The police have also made another arrest, in this case a youth, but it is thought probable that the actual culprit escaped.

The news of the attempt spread like wild-fire through the city, and when M. Faure returned to the Elysee the streets along the route where it was known he would drive were crowded with people, who cheered him vociferously.

ho cheered him vociferously. It was at first reported that the would-It was at first reported that the would-be assussin was a young man about twenty-five, who stood in the crowd a hundred yards or more from the race course and discharged a pistol at M. Faure as he drove up to the entrance, and there was a subsequent report that both pistol and bomb were used. But the police now believe the supposed pis-tol shot was merely the noise of the bomb.

The bomb was a clumsily made affair

The bomb was a clumsily made affair to which a piece of fuse was attached, and the fuse was probably lighted by a paper fixed in the end of a stick as soon as the head of the procession came into view. The presumption is that at the moment the fuse was lighted the culprit fied, and in any case the bomb could not have done much harm.

In the thicket where the police found the remnants of the bomb, they found also a pistol, upon which were engraved the words "Mort a Felix Faure." and the names Alsace-Lorraine and Cologne. Near the pistol was a small dagger bearing a similar threatening inscription; and a few feet away the police found a newspaper with a cartoon grossly insult-

and a rew isset away the points of many an ewspaper with a cartoon grossly insulfing to the President. This contained an offenedve inscription hinting at the execution of M. Faure.

The police have made three arrests the offeneden are suspension of compiler. The points have made intro unitarity in the bomb explosion, among them being two brothers. Galbet and Lauvin Ganier. They were closely questioned by M. Athalin, the examining magistrate, but as they gave satisfactory accounts of themselves and their movements, they were released about midnight.

To-day's attempt on the life

To-day's attempt on the life of M. Faure was made on the very spot where Berezowsky tried to shoot the czar while driving to the military review at Long Champs in 1857, and where Francois, a lunatic, fired his revolver at M. Faure on July 14, last.

It is rumored that the prefect of police has information connecting the Paris anarchists with the outrage, but it is generally believed that the act was the act of a mediman rather than of a conspirator. The pistol found by the police was loaded, but was of too small a calibre to be very dangerous.

THE CHURCH SUICIDE

Lies in the New York Morgue Unidentied-A Woman of Position.

NEW YORK, June 13.-No one called at the morgue to-day to identify the body of the old lady who shot herself on Saturday in the vestibule of Calvary church. That fact makes it seem likely that she did not live in New York o

ly that she did not live in New York or its vicinity, for all the newspapers published long accounts of the suicide. The suicide was probably sixty years old. She was pleasant-faced, and her figure indicated robust health. Her hands were soft and white, not the hands of a woman accustomed to menial work.

The brooch which she pawned to get the money to buy the revolver, with which she shot herself, seems to be the most likely clew. On it were two handpainted miniature portraits. One of them is of a woman of perhaps fity, and the other of a girl of perhaps eighteen. The costumes and the hair dressing are of the styles of thirty or forty years ago.
